Women have an in control that here is out of control. They say the heck with medical help that they do what they might. As always women are in search of control over things like fetus' rights and the like. Backed by the bank you will find the women have had the advantage of the bank. Their sense of control has meant another be without control. Tricks of the trade have meant well in control.

There are few roads north from Newport, RI. To be lost on the spiraling mountain. Spring street blocked.

East on Bellevue then, right then left or the other. Look to land on Broadway for north. Bring a map and a good one. The security mountain would call. J-World I recall was at the harbor I recently photographed by the Red Parrot. J-World sailing school, 1988. To sail a 24' sailboat.

Tony Manero, that there would be the perceived dishonor, the alter ego of Christ. But that's wrong because we look to Jesus for answers. We might have a perceived dishonor. Same with recall the line from GODSPELL musical movie of 1972, the INNER GOD PROCLAIM. Pertains to the life of Jesus Christ. A mocking sermon today could point to what.

When its a Jewish Church. The story of the new testament is not a complex one. What is son of man, son of God use in the story. And the legalization of Christianity understand 3 centuries after, is becuase the story of Jesus of Nazareth points to the time when all might be fair and all Earth's people one? Yes and when there would not be cause for charges of blasphemy, that there be SON OF MAN.

Understanding the new testament is just that. But it hasn't been time for the story line. But when its what does it mean?, remember Sweet Sweet Rachel, the Devil would say who wrote that it means something else. Instead to learn the Devil isn't really there? that we would lose the story line of life and all about it means something. You see, we must always look back to analyze the \$ speak.

That Paul would have been called by God to do His will. Rather the Devil called. DVD followers what is this ESP? To update the DVD. The DVD of God's will is a downward spiral. The DVD is on upward spiral.

The story of Sweet Sweet Rachel is the early event and then till the end of the film its who killed Paul. But we all saw Paul jump out the window of his own accord. So what would the Devil teach? DVD followers are also tempted by the Devil.

More on SWEET SWEET RACHEL. It's October 3. So that the Devil will fool. If you are trying to be into knowing onto meaning thought wisdom. The Devil will fool. We say the Devil fools. For instance today things have gone a bit too far. In this pursuit today you might find dilemmas untrue. That life is trying to tell you something. They'll say the Devil fools today. Undeserved but nonetheless it's classic Hell based on how you are making sense of things the wrong way.

The God who would walk amongst would be the Devil. The Devil would tell a story. Wrote,.. wisdom. It doesnt mean that it means something else, my story would say the Devil. That there would eb analyzing it for meaning. To get that story line. That its till the edn over who killed Paul, that we all saw Paul jump out the window of his own accord. So what is the meaning. So, base it on the story line. But it doesnt mean that would say the devil, it means something else. Life's story comes first then we look back when its to be correct as they say its all about \$ speak D and V. That people very wealthy and powerful might just try to say the answers. That's from the God who'd walk amongst. Based on its how it is, its what happens. D and V aware analysis.

When its computer activity. Understand intelligent activity, bank activity, computer activity is going on all the time. that's the thing the computer you see is always doing what it does. Its now a NETWORK. But you want to understand what happened as the computer was redirected. Understand what is a computer. Then what you might do with a computer depending on what software programs. The computer is off and on its way and you don't have to know what its up to, but rather what it does and then how to read it for answers. How to then tell it what to do, as \$ speak is relevant. wow huh?

THE COMPUTER, a network, is worldwide. This is not from some connections with spacecraft. Though spacecraft are part of the computer network. Understand first what a computer is and why we use them.

That there are web sites from other countries far away we are linked to them and can download them because not so long ago what is called the transatlantic cable was laid across the Atlantic Sea. Wireless came along later, and first everything was connected by ethernet port to modems and to the wall. Initially they were dial up telephone modems.

The ON THE AIR effect. Once there was on the air when radios were new, then when televisions came along. Tune in to the buzz of electronics around you red and green. We know red and green. Consider a traffic light. Data ultimately transmitted bit by bit of data. that's why I noted its a ?+ (simple) when its server retrieve file for auto-rotate and the "shazam" onto two windows, truly. NTFP

I didn't plug it in somewhere that we went on the air but I showed it validity rather. "On the air", with NETWORK. Recognizable where you are.

Consider "we are not shy", "we're very wide awake, the sun and I". Lines these are from The Mikado. RED RIGHT RETURN.. NTFP

Not sure why this was sent. but here's the idea and what can happen with the cloud storage you see. Cloud storage is putting your files onto their server onto their computer. They can then potentially lock you out of access to your files and they've got your files.

An idea around these days also seen in computer you see. The bank wary and sensing of this set up Zelle saying work it out amongst yourselves. I myself was such scammed by a supposed cat breeder. As would be responsible on the note accomodated by other micro pursuiter just is not. Mind blank in that way, the other micro. Idea seen of the two suggesting the great ON/OFF you see in IPv4 and IPv6. Also at least the idea mystical is presented when its WPA2 and WPA3. The password where username can be changed by them to lock out of log in for whatever reason. The other WPA3 the ssid. The ssid is simply the name of the wifi channel you select. Relevant is the SS ID aware. Human activity in \$ speak is essentially followed by the computer, a network at last.

I must share some new realizations when its the 1971 horror film, Sweet Sweet Rachel. See below link to view on [youtube.com](https://www.youtube.com).

So, Sweet Sweet Rachel is a story written by the Devil. That the meaning, the faith meaning, would be described in biblical (Biblical?) relevance, this film a bit different. See the wings pictured behind Paul, before he jumps after he lays out the sequence of five cards. The God who would walk amongst would be the Devil, the caharacter the Devil. Who is the God before its time. That there would be meeting the God face to face-

Finally find the God isn't there. This film is to find the Devil isn't there.

We find the God isn't there.

If Paul follows DVD how could Aunt Lilian be responsible for what happened to Paul? How could anyone? You saw what happened. Then what does the film mean? Aunt Lilian is the caller.

All the characters appear as they would be in Rachel's mind. Only Lilian appears as she would be in Lucas' mind. At the end of the story Rachel makes peace with her alter ego, seen as Nora. The making peace with the alter ego and she is freed. Watch the last scene. Uncle Arthur says in the last scene that it was Lilian who is responsible for killing Paul.

The film is about who it was that killed Paul. Excuse me but we all saw Paul jump out the window of his own will. Two hours of wondering who killed Paul. Evidence

That the film has a deeper meaning here. Paul sees the vision of Rachel in the window. Rachel smiles at herself from afar too in the scene. Is it not the Devil fooling there? That Paul might have been called by God to do God's will. Did we not conclude Paul must be delusional. Look closer. Paul was called, tricked by the Devil. That the film's plot dissolve and a story line lost we might just see meaning. But that is failure. When its biblical destiny relevance, we describe the story in terms of its relevance that there is such reality.

the people's lifestyle and abode at mansion suggest the life of opulence. This film points to biblical relevance of potential problems with that. That God would be writing don't forget He is also the Devil.

So here's the thing. As we would learn there is not really the Devil instead. Story is lost. Life's failure would mean the story of life be lost. When its destiny its \$ speak D and V, and terms like "correct". \$ speak for destiny important to observe the status quo is to be biblical. Just focusing on the meaning is wrong.

Sweet Sweet Rachel, by Wisdom.

Paul's responsibility for self. This mystical is what you might understand, comes through on some level in the drama. Lilian who'd be responsible, finally is told by Uncle Arthur in the end scene. When Rachel makes peace with her alter ego and is freed. A phenomenon sometimes experienced by conservative faith types who turn problems inward rather than victimize someone else, can come to grapple with what is known as an alter ego, not any true schizophrenia.

Lack of an understanding of this is at the root of the drama, as i might explain to you what it means rather than what the writer is trying to describe.
